

## **Intelligent Design Cmap Updates**

**In response to comments and suggestions received directly from those attending my initial Honors Lecture and indirectly from e-mails based on my web posted maps, I will continue to update map links and resources as long as necessary. In addition, I will be adding links to related Cmaps from some of my courses.**

**18 Dec 2005      Posted Doonesbury Sunday cartoon on ID to “Powerful & Effective” node of Science Cmap. Choose your physician carefully! Several other miscellaneous links updated.**

**20 Dec 2005      Posted link to pdf transcript of Judge John Jones’ decision in Kitzmiller (Dover) case (on Dover node of Wedge Strategy Cmap) – scathing rejection of ID as relabeled creationism and noting the “breathtaking inanity” of its proponents. It is particularly interesting to use the search function in Adobe Acrobat to peruse the judge’s comments on the testimony of Michael Behe, ‘star’ witness for the ID defenders.**
